INFORMATION ON THE CONFORMITY OF THE PACKAGING MATERIALS USED BY GEHR WITH REGULATION (EU) 2025/40 (PPWR)

We hereby declare that the packaging supplied or placed on the market by us complies with the applicable requirements of Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR). We comply with the obligations of the PPWR that apply to us as an economic operator.

This declaration is made on the condition that the packaging is used in accordance with its intended purpose and is not significantly modified without our prior consent.

The conformity assessment was carried out based on the PPWR requirements applicable to the respective packaging, considering the relevant technical and product-specific documentation available for this purpose.

The required technical documentation and the supporting evidence on which the conformity assessment is based are prepared and retained in accordance with the applicable legal requirements. This documentation contains, among other things, product-specific technical information and, where applicable, confidential business and operational information. Therefore, it is generally not intended for disclosure to downstream economic operators or other third parties.

Where the PPWR requires declarations of conformity, technical documentation or other supporting evidence to be submitted to competent authorities, we will provide such documentation to the relevant market surveillance or national authorities upon duly justified requests and in accordance with the applicable legal requirements.

In our understanding, PPWR does not provide downstream economic operators with a general right to obtain the complete technical documentation. The obligations relating to the retention and provision of such documentation primarily serve the purposes of regulatory compliance and official market surveillance.

Should you require any further information, please do not hesitate to contact us.
